CONTENTS OF VOLUME 138

Number 1, 25 March, 1980

Namba, K., Wakabayashi, K. and Mitsui, T., X-ray Structure Analysis of the Thin Filament of Crab Striated Muscle in the Rigor State . . . 1

Van Driel, R., Assembly of Bacteriophage T4 Head-related Structures IV. Isolation and Association Properties of T4 Prehead Proteins . . . 27

Perkins, S. J. and Wüthrich, K., Conformational Transition from Trypsinogen to Trypsin: ^{1}H Nuclear Magnetic Resonance at 360 MHz and Ring Current Calculations 43

Serwer, P., A Metrizamide-impermeable Capsid in the DNA Packaging Pathway of Bacteriophage T7 65

Reisler, E., On the Question of Co-operative Interaction of Myosin Heads with F-actin in the Presence of ATP 93

Osley, M. A. and Newton, A., Temporal Control of the Cell Cycle in *Caulobacter crescentus*: Roles of DNA Chain Elongation and Completion . . . 109

Letters to the Editor

Dietrich, A., Giegé, R., Comarmond, M. B., Thierry, J. C. and Moras, D., Crystallographic Studies on the Aspartyl-tRNA Synthetase-tRNA^{Asp} System from Yeast: The Crystalline Aminoacyl-tRNA Synthetase . 129

Goldbeter, A. and Venieratos, D., Analysis of the Role of Enzyme Co-operativity in Metabolic Oscillations 137

Birktoft, J. J., Miake, F., Frieden, C. and Banaszak, L. J., Crystallographic Studies of Glutamate Dehydrogenase II. Preliminary Crystal Data for the Tuna Liver Enzyme. 145

Number 2, 5 April 1980

Brahms, S. and Brahms, J., Determination of Protein Secondary Structure in Solution by Vacuum Ultraviolet Circular Dichroism 149

Casadaban, M. J. and Cohen, S. N., Analysis of Gene Control Signals by DNA Fusion and Cloning in *Escherichia coli* 179

Appendix: Additional Gene Fusion Vectors and Examples of Additional Promoter Identification Approaches 199

Wulff, D. L., Beher, M., Izumi, S., Beck, J., Mahoney, M., Shimatake, H., Brady, C., Court, D. and Rosenberg, M., Structure and Function of the *cy* Control Region of Bacteriophage Lambda 209

Court, D., Brady, C., Rosenberg, M., Wulff, D. L., Behr, M., Mahoney, M. and Izumi, S., Control of Transcription Termination: A Rho-dependent Termination Site in Bacteriophage Lambda 231

Jelinski, L. W. and Torchia, D. A., Investigation of Labeled Amino Acid Side-chain Motion in Collagen using ^{13}C Nuclear Magnetic Resonance . . 255

Johnson, A. E. and Cantor, C. R., Elongation Factor-dependent Affinity Labeling of *Escherichia coli* Ribosomes 273

Sarasin, A. R. and Hanawalt, P. C., Replication of Ultraviolet-irradiated Simian Virus 40 in Monkey Kidney Cells 299

Cohen, F. E. and Sternberg, M. J. E., On the Prediction of Protein Structure: The Significance of the Root-mean-square Deviation 321

Schulz, G. E., Gene Duplication in Glutathione Reductase 335

Morris, E. R., Rees, D. A. and Robinson, G., Cation-specific Aggregation of Carrageenan Helices: Domain Model of Polymer Gel Structure . . 349

Morris, E. R., Rees, D. A., Robinson, G. and Young, G. A., Competitive Inhibition of Interchain Interactions in Polysaccharide Systems . . 363

Welsh, E. J., Rees, D. A., Morris, E. R. and Madden, J. K., Competitive Inhibition Evidence for Specific Intermolecular Interactions in Hyaluronate Solutions 375

Morris, E. R., Rees, D. A. and Welsh, E. J., Conformation and Dynamic Interactions in Hyaluronate Solutions 383

Letters to the Editor

Contreras, I., Weissborn, A., Amemiya, K., Mansour, J., Henry, S., Bender, R. and Shapiro, L., The Effect of Termination of Membrane Phospholipid Synthesis on Cell-dependent Events in *Caulobacter* . 401

Ojala, D. and Attardi, G., Fine Mapping of the Ribosomal RNA Genes of HeLa Cell Mitochondrial DNA 411

Announcement 421

Number 3, 15 April 1980

Young, E. T., Mattson, T., Selzer, G., Van Houwe, G., Bolle, A. and Epstein, R., Bacteriophage T4 Gene Transcription Studied by Hybridization to Cloned Restriction Fragments 423

CHALLBERG, S. S. and ENGLUND, P. T., Heterogeneity of Minicircles in Kinetoplast DNA of *Leishmania tarentolae* 447

CHANTLER, P. D. and SZENT-GYÖRGYI, A. G., Regulatory Light-chains and Scallop Myosin: Full Dissociation, Reversibility and Co-operative Effects 473

NAKASHIMA, Y. and KONIGSBERG, W. H., Chemical Modification and Molecular Orientation of the B Protein in the Filamentous Bacterial Virus Pf1 . 493

GOTTESMAN, S. and ABREMSKI, K., The Role of HimA and Xis in Lambda Site-specific Recombination 503

GALLUPPI, G. R. and RICHARDSON, J. P., ATP-induced Changes in the Binding of RNA Synthesis Termination Protein Rho to RNA. 513

MANSON, M. D., TEDESCO, P. M. and BERG, H. C., Energetics of Flagellar Rotation in Bacteria 541

KHAN, S. and MACNAB, R. M., The Steady-state Counterclockwise/Clockwise Ratio of Bacterial Flagellar Motors is Regulated by Protonmotive Force 563

KHAN, S. and MACNAB, R. M., Proton Chemical Potential, Proton Electrical Potential and Bacterial Motility 599

WATENPAUGH, K. D., SIEKER, L. C. and JENSEN, L. H., Crystallographic Refinement of Rubredoxin at 1·2 Å Resolution 615

IMAI, K., IKEDA-SAITO, M., YAMAMOTO, H. and YONETANI, T., Studies on Cobalt Myoglobins and Hemoglobins X: Determination of Microscopic Oxygen-Equilibrium Constants of Iron–Cobalt Hybrid Hemoglobins and their Parent Hemoglobins 635

PERUTZ, M. F., KILMARTIN, J. V., NISHIKURA, K., FOGG, J. H., BUTLER, P. J. G. and ROLLEMA, H. S., Identification of Residues Contributing to the Bohr Effect of Human Haemoglobin 649

Appendix: PERUTZ, M. F., FOGG, J. H. and FOX, J. A., Mechanism of Deamination of Haemoglobin Providence Asn 669

ERRATUM 671

NUMBER 4, 25 APRIL 1980

RESCH, J., TUNKEL, D., STOECKERT, C. and BEER, M., Osmium-labeled Polysaccharides for Atomic Microscopy 673

SUSSKIND, M. M., A New Gene of Bacteriophage P22 which Regulates Synthesis of Antipressor 685

COURT, D., GOTTESMAN, M. and GALLO, M., Bacteriophage Lambda Hin Function I. Pleiotropic Alteration in Host Physiology 715

COURT, D., DE CROMBRUGGHE, B., ADHYA, S. and GOTTESMAN, M., Bacteriophage Lambda Hin Function II. Enhanced Stability of Lambda Messenger RNA 731

KABACK, D. B. and DAVIDSON, N., Organization of the Ribosomal RNA Gene Cluster in the Yeast *Saccharomyces cerevisiae* 745

HOLLAND, C. A., MAYRAND, S. and PEDERSON, T., Sequence Complexity of Nuclear and Messenger RNA in HeLa Cells 755

ACHTMAN, M., MANNING, P. A., KUSECEK, B., SCHWUCHOW, S. and WILLETTS, N., A Genetic Analysis of F Sex Factor Cistrons Needed for Surface Exclusion in *Escherichia coli* 779

NAGANO, K., Logical Analysis of the Mechanism of Protein Folding V. Packing Game Simulation of α/β Proteins 797

Appendix: Scoring Method for Choosing the Best Candidates of $\beta\alpha\beta$ Units 825

MURGOLA, E. J. and PAGEL, F. T., Codon Recognition by Glycine Transfer RNAs of *Escherichia coli in Vivo* 833

IKEDA-SAITO, M. and YONETANI, T., Studies on Cobalt Myoglobins and Hemoglobins XI. The Interaction of Carbon Monoxide and Oxygen with α and β Subunits in Iron–Cobalt Hybrid Hemoglobins 845

MURTHY, M. R. N., GARAVITO, R. M., JOHNSON, J. E. and ROSSMANN, M. G., Structure of Lobster Apo-D-Glyceraldehyde-3-Phosphate Dehydrogenase at 3·0 Å Resolution 859

LETTERS TO THE EDITOR

ANNOUNCEMENTS 885

Volume 138

ABREMSKI, K. (see also GOTTESMAN, S.), 503
ACHTMAN, M., MANNING, P. A., KUSECEK, B., SCHWUCHOW, S. & WILLETTS, N., A genetic analysis of F sex factor cistrons needed for surface exclusion in *Escherichia coli*, 779
ADHYA, S. (see also COURT, D.), 731
Affinity labeling, elongation factor-dependent, of *Escherichia coli* ribosomes, 273
α/β proteins, packing game simulation; logical analysis of the mechanism of protein folding, 797
AMEMIYA, K. (see also CONTRERAS, I.), 401
Amino acid side-chain motion in collagen, investigation using ^{13}C n.m.r., 255
Aminoacyl-tRNA synthetase, crystalline; crystallographic studies on the aspartyl-tRNA synthetase-$tRNA^{Asp}$ system from yeast, 129
Anticodon loop region, supporting evidence for alternate conformations; multimers of a suppressor tRNA, 879
Antirepressor synthesis is regulated by a new gene of bacteriophage P22, 685
Apo-D-glyceraldehyde-3-phosphate dehydrogenase of lobster, structure at 3·0 Å resolution, 859
Aspartyl-tRNA synthetase-$tRNA^{Asp}$ system from yeast, crystallographic studies: the crystalline aminoacyl-tRNA synthetase, 129
Assembly of bacteriophage T4 head-related structures: isolation and association properties of T4 prehead proteins, 27
Association properties of T4 prehead proteins, 27
ATP and the co-operative interaction of myosin heads with F-actin, 93
— -induced changes in the binding of RNA synthesis termination protein rho to RNA, 513
ATTARDI, G. (see also OJALA, D.), 411

B protein in the filamentous bacterial virus Pf1, chemical modification and molecular orientation, 493
Bacteria: energetics of flagellar rotation, 541
Bacterial flagellar motors, the steady-state counterclockwise/clockwise ratio is regulated by protonmotive force, 563
— motility and proton chemical potential, proton electrical potential, 599
Bacteriophage lambda Hin function: enhanced stability of lambda mRNA, 731
— — — —: pleiotropic alteration in host physiology, 715
— —, a rho-dependent transcription termination site, 231
— — site-specific recombination, role of HimA and Xis, 503
— —, structure and function of the cy control region, 209
— P22, a new gene which regulates synthesis of antirepressor, 685
— T4 gene transcription studies by hybridization to cloned restriction fragments, 423
— — head-related structure assembly: isolation and association properties of T4 prehead proteins, 27
— T7, a metrizamide-impermeable capsid in the DNA packaging pathway, 65
BANASZAK, L. J. (see also BITKTOFT, J. J.), 145
BECK, J. (see also WULFF, D. L.), 209
BEER, M. (see also RESCH, J.), 673
BEHER, M. (see also WULFF, D. L.), 209
BEHR, M. (see also COURT, D.), 231
BENDER, R. (see also CONTRERAS, I.), 401
BERG, H. C. (see also MANSON, M. D.), 541
$\beta\alpha\beta$ units, scoring method for choosing the best candidates, 825
Binding of RNA synthesis termination protein rho to RNA, ATP-induced changes, 513
BIRKTOFT, J. J., MIAKE, F., FRIEDEN, C. & BANASZAK, L. J., Crystallographic studies of glutamate dehydrogenase II. Preliminary crystal data for the tuna liver enzyme, 145
Bohr effect of human haemoglobin, identification of contributing residues, 649
BOLLE, A. (see also YOUNG, E. T.), 423
BRADY, C. (see also COURT, D.), 231
— — (see also WULFF, D. L.), 209
BRAHMS, J. (see also BRAHMS, S.), 149

Brahms, S. & Brahms, J. Determination of protein secondary structure in solution by vacuum ultraviolet circular dichroism, 149
Butler, P. J. G. (see also Perutz, M. F.), 649

^{13}C n.m.r. investigation of labeled amino acid side-chain motion in collagen, 255
Cantor, C. R. (see also Johnson, A. E.), 273
Capsid, metrizamide-impermeable, in the DNA packaging pathway of bacteriophage T7, 65
Carbon monoxide and oxygen, their interaction with α and β subunits in iron–cobalt hybrid hemoglobins, 845
Carrageenan helices, cation-specific aggregation: domain model of polymer gel structure, 349
Casadaban, M. J. & Cohen, S. N., Analysis of gene control signals by DNA fusion and cloning in *Escherichia coli*, 179
Cation-specific aggregation of carrageenan helices: domain model of polymer gel structure, 349
Caulobacter crescentus, the effect of termination of membrane phospholipid synthesis on cell-dependent events, 401
— —, temporal control of the cell cycle: roles of DNA chain elongation and completion, 109
Cell cycle temporal control in *Caulobacter crescentus*: roles of DNA chain elongation and completion, 109
Challberg, S. S. & Englund, P. T., Heterogeneity of minicircles in kinetoplast DNA of *Leishmania tarentolae*, 447
Chantler, P. D. & Szent-Györgyi, A. G., Regulatory light-chains and scallop myosin: full dissociation, reversibility and co-operative effects, 473
Chemical modification and molecular orientation of the B protein in the filamentous bacterial virus Pf1, 493
Circular dichroism, vacuum ultraviolet, and the determination of protein secondary structure in solution, 149
Cistrons, F sex factor, needed for surface exclusion in *Escherichia coli*, a genetic analysis, 779
Cloned restriction fragments used in hybridization study of T4 gene transcription, 423
Cloning and DNA fusion in *Escherichia coli*, their use in analysis of gene control signals, 179
Cobalt myoglobins and hemoglobins: determination of microscopic oxygen-equilibrium constants of iron–cobalt hybrid hemoglobins and their parent hemoglobins, 635
— — —: the interaction of carbon monoxide and oxygen with α and β subunits in iron–cobalt hybrid hemoglobins, 845
Codon recognition by glycine tRNAs of *Escherichia coli in vivo*, 833
Cohen, F. E. & Sternberg, M. J. E., On the prediction of protein structure: the significance of the root-mean-square deviation, 321
—, S. N. (see also Casadaban, M. J.), 179
Collagen, investigation of labeled amino acid side-chain motion using ^{13}C n.m.r., 255
Comarmond, M. B. (see also Dietrich, A.), 129
Competitive inhibition evidence for specific intermolecular interactions in hyaluronate solutions, 375
— — of interchain interactions in polysaccharide systems, 363
Conformation and dynamic interactions in hyaluronate solutions, 383
Conformational transition from trypsinogen to trypsin: ^{1}H n.m.r. at 360 MHz and ring current calculations, 43
Contreras, I., Weissborn, A., Amemiya, K., Mansour, J., Henry, S., Bender, R. & Shapiro, L., The effect of termination of membrane phospholipid synthesis on cell-dependent events in *Caulobacter*, 401
Co-operative interaction of myosin heads with F-actin in the presence of ATP, 93
Co-operativity, enzyme, role in metabolic oscillations, 137
Counterclockwise/clockwise ratio of bacterial flagellar motors is regulated by protonmotive force, 563
Court, D., Brady, C., Rosenberg, M., Wulff, D. L., Behr, M., Mahoney, M. & Izumi, S., Control of transcription termination: a rho-dependent termination site in bacteriophage lambda, 231
